

# Comfort International

Comfort International has been working with partners in Central Africa for 25 years, seeking to bring the practical and spiritual comfort of God to the broken, poor and traumatised.

We work with street children, rape survivors, child soldiers, vulnerable mums and babies, the Batwa pygmies of Burundi, displaced and sick people from the war in Congo and the poor of South Sudan.

We also train church leaders through the Comfort International Ministry School. We love partnering with local churches to support them in fulfilling God's mandate to take his justice and compassion to the poor.
