

# The Comfort Transformation Centre

Comfort International has been helping equip local partners to transform lives for 25 years. Many of these are the lives of street children and vulnerable mums. The Comfort Transformation Centre will allow these young people to grow and flourish in a healthy, caring environment; receiving food, clothing, education, health care and a sense of family, rehabilitating away from the drug and gang culture of the streets. The CTC will include:

- A purpose built centre to allow children and young mums to rebuild their lives for a better future.
- Accommodation for up to 80 ex-street children plus ‘house mamas’.
- A home for particularly vulnerable mums and their babies.
- Facilities for living, learning, meeting and play, including a library, computer room, meeting rooms, offices, cafeteria, green spaces and much more!
- Facilities to provide food for very poor non-residents.
